COURSE DESCRIPTION

PRINCE2® (PProjects IN Controlled Environments) is a process-based approach for project management providing an easily tailored and scalable method for the management of all types of projects. The method is the de-facto standard for project management and is practiced worldwide. PRINCE2 is a flexible method that guides you through the essentials for running a successful project regardless of project type or scale. PRINCE2 can be tailored to meet your organization or industry-specific requirements. Upon completion of the course, learners will be able to:

- Define the key concepts of projects and PRINCE2
- Explain how the PRINCE2 principles underpin the PRINCE2 method
- Understand the importance of people in successful projects
- Describe the PRINCE2 practices and how they are applied throughout the project
- Explain the PRINCE2 processes and how they are carried out throughout the project
- Identify the relationships between processes, deliverables, roles, and the management dimensions of a project

In addition to these general learning objectives, the PRINCE2 7 Foundation course also aims to prepare learners for the PRINCE2 Foundation exam. The exam covers the following topics:

- The seven PRINCE2 principles
- The seven PRINCE2 themes
- The seven PRINCE2 processes
- The purpose and major content of all PRINCE2 roles
- The purpose and major content of all PRINCE2 management products

By completing the PRINCE2 7 Foundation course and passing the exam, learners will demonstrate that they have a sound understanding of the PRINCE2 methodology and are ready to apply it to their own projects.

WHAT'S NEW AND IMPROVED IN PRINCE2 7?

- **The integration of People:** People are central to successful projects and now they are integrated into the PRINCE2 method
- **Project performance:** Sustainability has been added as a seventh aspect of project performance to reflect modern organisational needs.
